Flash Consumer Confidence Indicator

20 February 2023

<sup>&</sup>lt;sup>1</sup> This month's Flash CCI for the EU aggregate is computed on the basis of consumer survey data from 26 EU countries (all except Romania), covering 98% of the total private final consumption expenditure. For the euro-area indicator, all 20 Member States are included in the total.

<sup>&</sup>lt;sup>2</sup> The consumer confidence indicator builds on replies to selected questions addressed to consumers according to the Joint Harmonised EU Programme of Business and Consumer Surveys. More information on the consumer confidence indicator as well as time series can be found via the following link: <a href="https://economy-finance.ec.europa.eu/economic-forecast-and-surveys/business-and-consumer-surveys">https://economy-finance.ec.europa.eu/economic-forecast-and-surveys/business-and-consumer-surveys</a> en

<sup>&</sup>lt;sup>3</sup> Past results were revised due to seasonal adjustment, the annual update of country weights and the inclusion of Croatia in the euro-area aggregate.
